

2019 Chelle den Millie Sauvignon Blanc

VINTAGE NOTES

Temperatures during 2019 were closer to historical averages than they have been recently, with a notable lack of heat spikes. Beginning of September, the table appeared to be set for an ideal vintage. Then Mother Nature had her say...temperatures cooled markedly during harvest, stalling maturation. A series of rain events, which is unusual, delayed things further. Finally, several frosts, one at the end of September and a larger one on successive days the second week of October, brought the growing season to an end in many areas. At the end of the day, we were still pleased with the quality of the fruit.

Varietals: 100% Sauvignon Blanc
